Chitragong,
The 26th December 1919.

G. A. WILBY,
Acting Chief Auditor.

Report on the Weather and Crops for the week ending the 2nd January 1920.

SUMMARY.—Weather seasonable and favourable. Harvesting of winter rice, plucking of cotton-pressing of sugarcane, ploughing for spring rice in Sylhet and preparation of land for *jhumming* are in progress. Outturns of winter rice and cotton are fair to good and of sugarcane good. Prospects of standing crops are fair. Cattle-disease is reported from three districts. The price of common rice has fallen slightly.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|------------------------------------|-------------------------------------|--|----------------|---|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | CACHAR ... (SILCHAR). | Nil | 7 | 6½ | Weather seasonable and favourable. Harvesting of winter rice and pressing of sugarcane continue. Outturn of winter rice is fair except in North Cachar Hills where the crop is a failure on account of drought. |

T. C. McCOMBIE YOUNG, Major, I.M.S.,
Sanitary Commissioner, Assam.

Report on the Weather and Crops for the week ending the 9th January 1920.

SUMMARY.—Weather seasonable and favourable. Harvesting of winter rice and pulses, plucking of cotton, ploughing for and transplanting of spring rice in Sylhet and pressing of sugarcane are in progress. Ploughing for autumn rice and jute has commenced in places. Outturns of winter rice and pulses are fair to good and of cotton and sugarcane good. Prospects of mustard are fair. Cattle-disease is reported from three districts. The price of common rice is practically stationary.

C. N. SARMA,

Personal Assistant

to Director, Department of Land Records and Agriculture, Assam.

Report on the Weather and Crops for the week ending the 23rd January 1920.

SUMMARY.—Weather seasonable and favourable. Harvesting of winter rice and plucking of cotton are practically finished. Pressing of sugarcane, harvesting of mustard and pulses, pruning of tea, transplanting of spring rice in Sylhet, ploughing for autumn rice and jute and preparation of land for *jhumming* are in progress. Outturns of winter rice, mustard and pulses are fair to good and of sugarcane and cotton good. Prospects of standing crops are fair. Cattle-disease is reported from three districts. The price of common rice is practically stationary.

Chittagong,
The 23rd
25th January 1920.

G. A. WILBY,
Acting Chief Auditor.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

FINAL FORECAST OF THE SUGARCANE CROP OF ASSAM
1919-20.

[NOTE.—On the average of the five years ending 1917-18, the area under sugarcane in Assam represents some 1·5 per cent. of the total area under sugarcane in British India.]

The weather conditions continued to remain favourable since the issue of the first forecast. The rainfall from September to November encouraged growth and a normal outturn is estimated.

The total area under the crop according to the Deputy Commissioners' estimates is 31,300 acres against 33,300 acres (revised) of last year. Sylhet and Lakhimpur are mainly responsible for the decrease owing to discontinuance of *jhum* cultivation.

As estimated by the Deputy Commissioners the outturn for the province comes to 101 per cent. of the normal per acre against 92 (revised) of the previous year. The outturn is reported to be below normal only in Cachar, Goalpara and Nowgong.

On the basis of the normal yield of 18 cwt. of *gur* per acre the total produce of the province is estimated at 569,000 cwt. against 551,400 cwt. (revised) of last year or an increase of 3 per cent.

DATED CAMP GAUHATI :

The 23rd January 1920.

J. McSWINEY,

Director of Land Records and
Agriculture, Assam.

APPENDIX I.

Final Forecast of the Sugarcane Crop of Assam for 1919-20.

| District. | 1 | 2 | 3 | 4 | Estimated outturn as a percentage of the normal yield per unit of area. | | Date by which the harvesting of the crop generally commenced this year and whether that date was early, normal or late. | Remarks by District Officers. |
|-----------|-----|--|--|---|---|------------|---|--|
| | | | | | Last year. | This year. | | |
| | | Estimated normal area under sugarcane. | Actual area under sugarcane last year. | Estimated area under sugarcane this year. | | | | |
| | | Acres. | Acres. | Acres. | | | | |
| 1 | | | | | | | | |
| Cochin | ... | 7,300 | 5,400 | 8,000 | 80 | 90 | First week of November: early. | Favourable weather and the high price of sugar account for the increase in area. The weather from July to December was generally dry but beneficial to the crop. |
| Sijhet | ... | 7,000 | 6,500 | 4,000 | 100 | 100 | Middle of November: early. | The decrease in area is due to the discountenance of <i>dhaw</i> cultivation in the hills. The weather has been on the whole favourable. |
| Goalpara | ... | 1,300 | 1,300 | 1,300 | 65 | 65 | 1st week of January: normal. | The weather was not favourable early in the season but became so afterwards. The crop was damaged to some extent by floods. |
| Kamrup | ... | 5,500 | 4,800 | 4,800 | 85 | 100 | Middle of January: early. | The weather was unfavourable at the beginning, but improved subsequently. The condition of the crop now appears to be good. |

| | | | | | | | | | | |
|-----------------------|-----|-----|---------------|----------------|---------------|------------|------------|--------------------------------|-----|---|
| Bamang | ... | ... | 2,760 | 1,800 | 1,900 | 90 | 100 | 14th November : early | ... | The weather has been favourable throughout the season. |
| Nowgong | ... | ... | 1,800 | 2,800 | 2,540 | 70 | 90 | First December : early | ... | The weather was dry at the planting season but improved afterwards. The outturn is expected to be below normal. |
| Sihangar | ... | ... | 4,600 | 5,700 | 5,300 | 100 | 130 | First week of December : early | ... | The high price of gur is the cause of the increase in area. The weather has been favourable throughout and the outturn is better than last year. |
| Lokimpur | ... | ... | 3,700 | 5,000 | 4,000 | 105 | 110 | 14th November : early | ... | The decrease in area as compared with last year is due to abandonment of cultivation by foreign settlers. The weather has been good throughout and the crop is better than last year. |
| Sadiya Frontier Tract | ... | ... | 300 | 500 | 400 | 160 | 160 | 30th November : early | ... | The decrease in area is due to a decrease in the number of sugarcane cultivators, who were mainly Nepalese. The weather has been fair. |
| Total | ... | ... | 26,760 | 25,300* | 23,130 | 92* | 101 | | | |

* Revised on the basis of crop abstract.

APPENDIX II.

Abstract statement of estimated acreage and outturn of the Sugarcane Crop of 1919-20 for the reporting districts of Assam.

| Provinces. | Acreage. | | | | Outturn (in cwt. of gur). | | | | | | |

C. N. SARMA,

Personal Assistant

to Director, Department of Land Records and Agriculture, Assam

Report on the Weather and Crops for the week ending the 30th January 1920.

SUMMARY.—Weather seasonable and favourable. Pressing of sugarcane, harvesting of mustard and pulses, pruning of tea, transplanting of spring rice in Sylhet, ploughing for autumn rice and jute and preparation of land for *jhumming* are in progress. Outturns of sugarcane, mustard and pulses are fair to good and prospects of other crops fair. Cattle-disease is reported from two districts. The price of common rice has risen in Surma Valley.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |

Chittagong,
The 30th January
2nd February 1920.

G. A. WILBY,
Acting Chief Auditor.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

FINAL FORECAST OF THE COTTON CROP OF ASSAM.
1919-20.

[NOTE.—On the average of the five years ending 1917-18, the area under cotton crop in Assam represents some 0·2 per cent. of the total area under cotton in India.]

The weather conditions continued to be favourable since the issue of the third forecast and improved the outturn of the cotton crop. The Deputy Commissioner, Garo Hills, has raised his estimate of outturn to 104 per cent. of the normal. The total yield of the clean cotton from an estimated area of 33,000 acres amounts to 14,000 bales against 12,000 bales of previous year.

J. McSWINEY,

DATED CAMP JORHAT :
The 1st February 1920. }

*Director of Land Records and
Agriculture, Assam.*

Final Forecast of the Cotton Crop of Assam, 1919-20.

| District. | Area, in acres. | | | | Yield in bales of 400 lbs. | | | | | Remarks by District Officers. | | | | |
|--------------------------|-------------------------|--------------------------|--------------------------------------|---|----------------------------------|---|--|----------------------------------|--|-------------------------------|-----------|--------------------|--|--|
| | Of current year's crop. | Of previous year's crop. | Average of preceding— | Percentage by which column 2 exceeds (+) or is less than (-) area in— | | Estimated yield of current year (i.e., area in column 2). | Estimated yield of previous year (i.e., area in column 3). | Average of preceding— | Percentage by which column 7 exceeds (+) or is less than (-) yield in— | | | | | |
| | | | | Column 3. | Column 4. | | | | Column 8. | | Column 9. | | | |

T. C. McCOMBIE YOUNG, Major, I.M.S.,
Sanitary Commissioner, Assam.

Report on the Weather and Crops for the week ending the 6th February 1920.

SUMMARY.—Weather generally cloudy : light rain fell in all districts and is beneficial to standing crops. Pressing of sugarcane, harvesting of mustard and pulses, pruning of tea, transplanting of spring rice, ploughing for autumn rice and jute and preparation of land for *jhumming* continue. Outturns of sugarcane, mustard and pulses and prospects of other crops are fair. Cattle-disease is reported from five districts. The price of common rice has risen slightly.

G. A. WILBY,
Acting Chief Auditor.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

FINAL FORECAST OF THE WINTER RICE CROP OF ASSAM,
1919-20.

[NOTE.—On the average of the five years ending 1917-18, the area under winter rice in Assam represents some 4·6 per cent. of the total area in British India.]

The season opened unfavourably but conditions had improved by the beginning of October when the preliminary forecast was issued and continued to be favourable up to the harvest.

The total area under the crop according to the Deputy Commissioners' estimates was 3,158,200 acres against 3,141,900 acres, shown in the second forecast, and 3,395,100 acres, the actual of last year. Since the issue of the second forecast, the figures of four districts have been revised.

The estimate for the province remains unchanged since the second forecast at 93 per cent. of the normal outturn per acre against 73 of the previous year. The crop is estimated to be above normal in Sibsagar and Lakhimpur, normal in Sylhet, and below normal in other districts. Taking 8·5 cwt. as the normal yield of clean rice per acre the total outturn is estimated to be 24,965,600 cwt. or 18 per cent. more than in last year and 2 per cent. higher than the average for the last five years. I consider that this is a conservative estimate.

Camp Nazira,
The 10th February 1920. }

J. McSWINEY,

Director of Land Records and
Agriculture, Assam.

APPENDIX I.

Final Forecast of the winter rice crop of Assam for 1919-20.

| District. | Estimated normal area under winter rice. | Actual area under winter rice last year. | Estimated area under winter rice this year. | Estimated outturn as a percentage of the normal yield per unit of area. | | Remarks by Deputy Commissioners. |
|-----------|--|--|---|---|------------|---|
| | | | | Last year. | This year. | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| Cachar | Acres. 188,000 | Acres. 195,700 | Acres. 159,000 | 7 | 65 | Drought at the beginning of the season is the cause of the decrease in area compared with the actual of last year. In the last part of September the weather was good which improved the crop to some extent. Little rain fell by the end of October and middle of November and by the latter part of December and January the weather was dry and hence the decrease in outturn from that of the 2nd forecast. |
| Sylhet | Acres. 1,775,000 | Acres. 1,800,800 | Acres. 1,440,500 | 52 | 100 | The decrease in area as compared with the actual of last year is due to drought at sowing time. The weather improved in September and continued to be beneficial to the crop till the end of the season. There was a bumper crop in the low-lying tracts but below normal on the high land. Taking the two crops together the outturn is estimated to be normal. |
| Goalpara | Acres. 265,000 | Acres. 235,700 | Acres. 261,000 | 65 | 70 | The increase in area as compared with the 2nd forecast of this year is due to revision. The weather was unfavourable at the beginning but became favourable afterwards. The increase in area as compared with the actual of last year is due to high price of rice. |

| | | | | | | | | | |
|---------------------|-----|-----|-----|-----------|-----------|-----------|-----|-----|--|
| Kamrup | ... | ... | ... | 335,000 | 331,200 | 331,300 | 80 | 76 | Want of rain at the early part of the season is the cause of the decrease in both area and outturn. The weather became favourable afterwards. |
| Dimaas | ... | ... | ... | 138,000 | 218,700 | 174,700 | 100 | 75 | The decrease in area and outturn as compared with the actual of last year is due to drought at the beginning. |
| Nowgong | ... | ... | ... | 136,000 | 175,500 | 189,500 | 90 | 85 | Much land could not be sown or planted on account of drought in the early part of the season. The weather improved during the growth of the crop and continued to be favourable towards the end. Insects caused some damage. The decrease in area as compared with the second forecast is due to revision. |
| Sibsagar | ... | ... | ... | 348,000 | 394,500 | 348,400 | 110 | 120 | Dry weather at the beginning was the cause of the decrease in area: it improved afterwards and continued beneficial till the close of the season. The outturn is expected to be above normal. |
| Lakhimpur | ... | ... | ... | 155,000 | 189,900 | 164,300 | 105 | 102 | The decrease in area as compared with the actual of last year is due to want of rain at the time of transplantation. The weather became favourable afterwards. Slight damage by floods has been reported in North Lakhimpur Sub-division. |
| Garo Hills (Plains) | ... | ... | ... | 23,000 | 21,900 | 25,600 | 80 | 89 | The weather was not favourable on account of insufficient rain at sowing and transplanting time. Hence the decrease in both area and outturn. |
| Other districts | ... | ... | ... | 75,900 | 75,900 | 75,000 | ... | ... | |
| Total | ... | ... | ... | 3,441,900 | 3,385,100 | 3,158,200 | 73 | 93 | |

APPENDIX II.

Abstract Statement of estimated acreage and outturn of the winter rice crop of Assam for 1919-20.

| Provinces. | Acreage. | | | | | | Outturn (in cwt.). | | | | | | |
|------------|-------------------------|--------------------------|-----------------------|--|-----------|---|--|-----------------------|---|------------|------------|------------|-----|
| | Of current year's crop. | Of previous year's crop. | Average of preceding— | Percentage by which column 2 exceeds (+) or is less than (—) area in | | Estimated yield of current year's (cwt. of area in column 2). | Estimated yield of previous year's (cwt. of area in column 3). | Average of preceding— | Percentage by which column 7 exceeds (+) or is less than (—) yield in | | | | |
| | | | | Column 3. | Column 4. | | | | Column 8. | Column 9. | Column 10. | Column 11. | |
| | | | | | | | | | | | | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | | | |
| Assam | 3,185,300 | 3,308,100* | 3,434,460 | 3,363,000 | — 7 | — 6 | 24,965,600 | 31,066,600* | 24,532,500 | 25,885,600 | + 18 | + 2 | — 4 |

* On the basis of crop abstracts.

APPENDIX III.

Statement of rainfall in November and December 1919.

| District. | November. | | December. | |
|-------------------|-----------|---------|-----------|---------|
| | Normal. | Actual. | Normal. | Actual. |
| 1 | 2 | 3 | 4 | 5 |
| | Inches. | Inches. | Inches. | Inches. |

Surma Valley and Hill Districts.

Assam Valley Division.

C. N. SARMA,

Personal Assistant

to Director, Department of Land Records and Agriculture, Assam.

Report on the Weather and Crops for the week ending the 13th February 1920.

SUMMARY.—Weather generally cloudy and favourable for standing crops: slight rain fell in most districts. Harvesting of pulses is nearly finished and that of mustard, pressing of sugarcane, pruning of tea, transplanting of spring rice, ploughing for autumn rice and jute and preparation of land for *jhumming* continue. Outturns of sugarcane, mustard and pulses and prospects of other crops are generally fair. Cattle-disease is reported from six districts. The price of common rice continues to rise.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|--------------------------------------|-------------------------------------|--|----------------|--|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | CACHAR (SILCHAR). | ·22 | 5½ | 6½ | Weather cloudy and windy and somewhat harmful to harvesting of mustard and pulses which is in progress. Pressing of sugarcane continues. Outturn of sugarcane is fair. Cattle-disease is reported from some places in Hailakandi and North Cachar Hills subdivisions. |
| | Hailong | ·43 | 5 | 5 | |
| | Hailakandi | ·82 | 6 | 6½ | |
| 2 | SYLHET | ·17 | 6 | 6½ | Weather seasonable and favourable to standing crops. Pressing of sugarcane, harvesting of mustard, ploughing for and transplanting of spring rice and pruning of tea continue. Prospects of cotton, sugarcane and spring rice are good, but of tea and mustard not good. |
| | Sunamganj | 1·07 | 5 | 5 | |
| | South Sylhet | ·70 | 5½ | 6 | |
| | Karimganj | 1·42 | 5½ | 6 | |
| | Haliganj | ·59 | 6½ | 7 | |
| 3 | KHASI AND JAINTHIA HILLS (SHILLONG). | ·08 | 5½ | 5½ | Weather seasonable. Plucking of cotton, preparation of land for summer crops and ploughing for wet rice fields are in progress. |
| | Jowai | Nil | 6 | 6 | |
| 4 | NAGA HILLS (KOHIMA). | ·39 | 8½ | 8½ | Weather cold and cloudy. Preparation of land for <i>jhumming</i> continues. Sowing of jobsteers has commenced. Cattle-disease is reported from some villages in the sadr subdivision. |
| | Mokokechang | ·74 | 11 | 11 | |
| 5 | LUSHAI HILLS (AIZAL). | 2·31 | 4 | 4½ | Outturns and prospects of crops are below normal. |
| | Lungleh | 1·75 | 6 | 6 | |
| 6 | GOALPARA (DHUBRI). | Nil | 5½ | 5½ | Weather cold and favourable to standing crops. Harvesting of mustard is nearly finished. Ploughing for autumn rice and jute continues. Prospects of crops are fair. Cattle-disease is reported from one mauza. |
| | Goalpara | ·82 | 7 | 7 | |
| 7 | KAMRUJ (GAUHATI). | Nil | 6 | 6½ | Weather favourable. Harvesting of mustard is nearly finished. Ploughing for autumn rice continues. Prospects of crops are fair. Cattle-disease is reported from one mauza in Barpeta subdivision. |
| | Barpeta | Nil | 6 | 6 | |

Report on the Weather and Crops for the week ending the 13th February 1920—concluded.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|---------------------------------|-------------------------------------|--|----------------|---|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 8 | DARRANG (TEZPUR). | Nil | 6 | 6 | Weather cold and cloudy and favourable for standing crops. Pressing of sugarcane, harvesting of mustard, ploughing for autumn rice and sugarcane, and pruning of tea are in progress. |
| | Mangaldai ... | Nil | 6 | 6½ | |
| 9 | Nowgong ... | Nil | 5 | 6 | Weather very cold and favourable for standing crops. Rain is wanted for tea cultivation. Harvesting of pulses is nearly finished. Harvesting of mustard, pressing of sugarcane, hoeing and pruning of tea and ploughing for autumn and winter rice continue. Outturn of mustard is fair and that of sugarcane and prospects of other standing crops are good. Cattle-disease is reported from places. |
| 10 | SIBSAGAR (JORHAT). | 31 | 6 | 6 | Weather seasonable and favourable for standing crops. Prospects of crops are fair. |
| | Sibsagar ... | 21 | 6 | 6½ | |

C. N. SARMA,

Personal Assistant

to Director, Department of Land Records and Agriculture, Assam.

Report on the Weather and Crops for the week ending the 20th February 1920.

SUMMARY.—Weather seasonable. Harvesting of mustard and pulses is nearly finished. Pressing of sugarcane, pruning of tea, transplanting of spring rice, ploughing for autumn rice and jute and preparation of land for *jhumming* continue. Outturns and prospects of crops are generally fair. Cattle-disease is reported from five districts. The price of common rice continues to rise slightly.

Shillong,
The 27th February 1920.

L. B. WARD,
Deputy Comptroller, Assam.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

FINAL FORECAST OF THE RAPE AND MUSTARD CROPS OF ASSAM, 1919-20.

[NOTE.—On the average of the five years ending 1917-18, the area under rape and mustard crops in Assam represents some 4·4 per cent. of the total area under the crops in British India.]

From the issue of the preliminary forecast to the harvest there was no rain, the want of which affected growth in Goalpara, Kamrup and Garo Hills.

The area under rape and mustard according to the Deputy Commissioners' estimates is 289,700 acres against 286,400 acres (revised) of last year : the increase is mainly due to high prices. The areas reported in the preliminary forecast have been raised in Cachar, Kamrup, Nowgong, Sibsagar and Lakhimpur, and reduced in Sadiya Frontier Tract and Garo Hills.

As estimated by the Deputy Commissioners the percentage outturn for the province is calculated to be 87 of the normal per unit of area or 10 per cent. more than in previous year. Taking $4\frac{1}{2}$ cwt. as the normal yield per acre, the total produce of the province amounts to 56,700 tons or 14 per cent. more than in last year.

CAMP DIBRUGARH :

The 25th February 1920.

J. McSWINEY,

*Director of Land Records and
Agriculture, Assam.*

APPENDIX I.

Final Forecast of the Rape and Mustard Crops of Assam, 1919-20.

| District. | Estimated normal area under rape and mustard crops. | Actual area under rape and mustard crops last year. | Estimated area under rape and mustard crops this year. | Estimated outturn as a percentage of the normal yield per unit of area. | | Date by which the harvesting of the crops began this year and whether that date was early, normal or late. | Remarks by District Officers. |
|-----------|---|---|--|---|------------|--|--|
| | | | | Last year. | This year. | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| Cachar | Acres. 10,000 | Acres. 8,000 | Acres. 12,000 | 70 | 96 | Second week of January : normal. | The rainfall in November lengthened the period of sowing the crops. The high price of mustard oil also tended to increase the area. In December and January the weather was favourable, but the crop sown before the rainfall of November was damaged by it and hence the outturn is below normal. |
| Silhet | Acres. 52,000 | Acres. 40,000 | Acres. 40,000 | 70 | 90 | Beginning of February : normal. | The weather during the season was fairly favourable except that there was no rain in December and January. |
| Goalpara | Acres. 53,400 | Acres. 63,000 | Acres. 68,500 | * 70 | 75 | 1st week of January : normal. | The increase as compared with the actual of last year is due to high price of mustard. The outturn is below normal owing to want of timely rainfall. |
| Kamrup | Acres. 67,000 | Acres. 85,300 | Acres. 86,000 | 80 | 75 | 12th January : normal | The area reported in the preliminary forecast have been revised. The rainfall at the beginning retarded ploughing and hence the decrease in area as compared with last year. The weather was unfavourable during the growth of the crop and some damage was done by drought and insects. |

APPENDIX I.

| District. | Estimated normal area under rape and mustard crops. | Actual area under rape and mustard crops last year. | Estimated area under rape and mustard crops this year. | Estimated outturn as a percentage of the normal yield per unit of area. | | Date by which the harvesting of the crops began this year and whether that date was early, normal or late. | Remarks by District Officers. |
|-------------------------|---|---|--|---|------------|--|--|
| | | | | Last year. | This year. | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| Barrang ... | Acres. 21,250 | Acres. 23,500 | Acres. 22,900 | 80 | 100 | Middle of January: normal ... | The failure of the autumn rice crop and the favourable weather account for the increase in area and fall outturn. |
| Nowgong ... | " 49,400 | " 36,000 | " 41,000 ^a | 60 | 95 | Ditto ditto | The increase in area is due to expansion of cultivation chiefly by foreign settlers. The outturn is estimated to be slightly below normal on account of insufficient rain in December and January. |
| Sibsagar ... | " 36,100 | " 31,300 | " 29,800 | 95 | 113 | Last week of January: normal | The area is less than last year owing to unfavourable weather at the beginning. |
| Lakhimpur... | " 15,000 | " 7,500 | " 11,100 | 75 | 100 | 15th March: late | The weather was subsequently favourable. Slight damage was done by rain in the Majuli. |
| Sadiya Frontier Tract | " 500 | " 800 | " 300 | 95 | 95 | 15th February: late | The increase in area as compared with the actual of last year is attributable to the high price of mustard seed. The weather was favourable during the season but slight damage was done by hail in North Lakhimpur. |
| Garo Hills (pharus) ... | " 5,500 | " 6,100 | " 6,300 | 60 | 70 | 21st January: normal | The character of weather was fair. |
| Total ... | 304,100 | 256,400* | 280,700 | 77* | 87 | | The increase in area is due to high price of mustard last year. The weather was favourable at growing time but not so favourable in January on account of want of rain. |

* On the basis of crop abstracts.

T. C. McCOMBIE YOUNG, Major, I.M.S.,
Sanitary Commissioner, Assam.

Report on the Weather and Crops for the week ending the 27th February 1920.

SUMMARY.—Weather seasonable. Harvesting of mustard and pulses is almost finished. Pressing of sugarcane, pruning of tea, transplanting of spring rice, ploughing for autumn and winter rice and jute and preparation of land for *jhumming* continue. Harvesting of tobacco and sowing of autumn rice and jute have commenced. Outturns and prospects of crops are generally fair. Cattle-disease is reported from five districts. The price of common rice is practically stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |

Chittagong,

The 27th February 1920.
1st March

G. A. WILBY,

Acting Chief Auditor.

Report on the Weather and Crops for the week ending the 3th March 1920.

SUMMARY.—Weather generally rainy and beneficial to agricultural operations. Harvesting of mustard and pulses is approaching completion. Pressing of sugarcane, pruning of tea, harvesting of tobacco, preparation of land for *jhumming* and ploughing for autumn and winter rice and jute are in progress. Transplanting of spring rice is finished. Sowing of autumn rice and jute is going on. Outturns and prospects of crops are generally fair. Cattle-disease is reported from five districts. Price of common rice has risen slightly.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|--|-------------------------------------|--|--------------------------|---|
| | | | This week. | Previous week. | |

CHANDRA NATH SARMA,

for Director of Land Records and Agriculture, Assam.

Report on the Weather and Crops for the week ending the 12th March 1920.

SUMMARY.—Weather generally rainy and favourable to agricultural operations: heavy rain and hailstorms have somewhat damaged the standing crops and interfered with ploughing in some districts of the Assam Valley. Ploughing of land for rice and jute, pressing of sugarcane, pruning of tea and preparation of land for *jhumming* in the hills continue. Prospects and outturns of mustard and pulses are fair to good. Sowing of autumn rice and jute has commenced in places. Cattle-disease is reported from three districts. The price of common rice is stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|-------------------------------------|-------------------------------------|--|----------------|---|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | CACHAR ... (SILOHAR). | 2.66 | 5½ | 5½ | Weather cloudy and windy: ploughing land for early rice continues. Cattle-disease is reported from Hailakandi and North Cachar Hills subdivisions. |
| | Haflong ... | 3.45 | 5 | 5 | |
| | Hailakandi ... | 2.86 | 6½ | 6½ | |
| 2 | SYLHET ... | 2.08 | 6½ | 6 | Weather rainy and favourable for ploughing. Harvesting of mustard is finished and outturn is fair. Pressing of sugarcane, pruning of tea and ploughing for autumn and winter rice and jute continues. Prospects and outturns of crops are generally fair. |
| | Sunamganj ... | 2.90 | 5½ | 5½ | |
| | South Sylhet .. | 2.55 | 5½ | 6 | |
| | Karimganj ... | 4.26 | 5½ | 5½ | |
| | Habiganj ... | 2.56 | 6½ | 6 | |
| 3 | KHASI AND JAINTIA HILLS (SHILLONG). | .04 | 4½ | 4½ | Weather seasonable and favourable. Plucking of cotton and preparation of wet rice fields is in progress. |
| | Jowai ... | Nil | 5½ | 6 | |
| 4 | NAGA HILLS (KOHIMA). | .71 | 8 | 8½ | Weather cloudy with little rain at intervals. Sowing of millets is finished. Clearing of <i>jhum</i> fields is going on and sowing of jobsteers continue. |
| | Mokokchung | 2.27 | 10 | 10 | |
| 5 | LUSHAI HILLS (AIZAL). | 4.88 | 4½ | 3½ | Weather rainy. <i>Jhum</i> cutting is nearly finished. Outturns and prospects of crops are below normal. |
| | Lungleh ... | 2.54 | ... | 6 | |
| 6 | GOALPARA (DHUBRI). | .18 | 5½ | 5½ | Weather seasonable and favourable to standing crops. Ploughing for jute and autumn rice continues and sowing has also commenced in places. Prospects of crops are good. |
| | Goalpara ... | .14 | 6 | 6 | |
| 7 | KAMRUP (GAUHATI). | .75 | 5½ | 5½ | The standing crops have partly been damaged by the hailstorms. Ploughing of land for autumn rice is going on. Outturn of mustard is good. |
| | Barpeta ... | 2.00 | 6 | 5 | |

Report on the Weather and Crops for the week ending the 12th March 1920—concluded.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |

J. McSWINEY,

Director of Land Records and Agriculture, Assam.

Report on the Weather and Crops for the week ending the 19th March 1920:

SUMMARY.—Weather generally seasonable and favourable to agricultural operations. Ploughing for rice and jute, pressing of sugarcane, pruning of tea and harvesting of mustard in progress. Sowing of autumn rice and jute has commenced. Prospects and outturns of crops are fair to good. Cattle-disease is reported from three districts. The price of common rice is practically stationary.

J. McSWINEY,

Director, Department of Land Records and Agriculture, Assam

Report on the Weather and Crops for the week ending the 26th March 1920.

SUMMARY.—Weather rainy and generally favourable to agricultural operations, but delaying sowing. Ploughing for rice and jute, pressing of sugarcane, and harvesting of mustard and *matikalai* are in progress. Prospects and outturns of crops are good. Cattle-disease is reported from five districts. The price of common rice is practically stationary in the Assam Valley and has fallen slightly in Surma Valley.

Chittagong,

The $\frac{6th}{6th}$ April 1920.

G. A. WILBY,

Acting Chief Auditor.

Report on the Weather and Crops for the week ending the 9th April 1920.

SUMMARY.—Weather generally favourable but sowing delayed in places by rain. Ploughing of land for rice, jute and sugarcane, harvesting of mustard and pulses and pressing of sugarcane continue. Sowing of autumn and winter rice has commenced. Prospects of crops are generally good. Cattle-disease is reported from five districts. The price of common rice is practically stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |

J. McSWINEY,

Director, Department of Land Records and Agriculture, Assam.

Report on the Weather and Crops for the week ending the 23rd April 1920.

SUMMARY.—Weather generally seasonable. Pressing of sugarcane, sowing of *jhum* crops, ploughing for and sowing of autumn and winter rice and jute and tea manufacture are in progress. Harvesting of spring rice has commenced with fair outturn. Prospects of crops are fair to good. Cattle-disease is reported from five districts. The price of common rice is practically stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |

Sarima Valley
and Hill
Districts.Assam Valley
Division.

J. McSWINEY,

Director, Department of Land Records and
Agriculture, Assam.

Report on the Weather and Crops for the week ending the 30th April 1920.

SUMMARY.—Weather generally seasonable. Pressing of sugarcane, sowing of *jhum* crops, ploughing for and sowing of autumn and winter rice and jute, harvesting of spring rice and tea manufacture are in progress. Outturns and prospects of crops are generally fair. Cattle-disease is reported from five districts. The price of common rice is practically stationary.

Sanitary Commissioner, Assam.

Report on the Weather and Crops for the week ending the 14th May 1920.

SUMMARY.—Weather generally rainy. Pressing of sugarcane is nearly over. Harvesting of spring rice, ploughing for and sowing of autumn and broadcast winter rice, sowing of cotton and planting of sugarcane are in progress. Ploughing for transplanted winter rice has commenced. Prospects of crops are fair. Cattle-disease is reported from five districts. The price of common rice has again risen slightly.

Dated Shillong :
The 20th May 1920.

Report on the Weather and Crops for the week ending the 28th May 1920.

SUMMARY.—Weather generally seasonable. Harvesting of spring rice and sowing of autumn rice and jute are nearly finished. Sowing of winter rice and cotton, ploughing for transplanted winter rice, planting of sugarcane and plucking of tea continue. Outturn of spring rice is fair. Prospects of other crops are generally fair to good. Cattle-disease is reported from six districts. The price of common rice is practically stationary.

Surma Valley
and Hill
Districts.Assam Valley
Division.

J. McSWINEY,

Director, Department of Land Records and
Agriculture, Assam.

Report on the Weather and Crops for the week ending the 18th June 1920.

SUMMARY.—Weather seasonable but more rain is wanted in the Upper Assam Valley. Plucking of tea and cultivation of winter rice continue. Prospects of crops are fair. Cattle-disease is reported from seven districts. The price of common rice continues to rise slightly.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|-------------------------------------|-------------------------------------|--|--------------------------------|---|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | CACHAR ... (SILCHAR). | 5.72 | 4½ | 4½ | Weather seasonable: more rain is wanted. Cultivation of winter rice is in progress. Prospects of paddy crops are not hopeful. Cattle-disease is reported from places. [Received late]. |

SHILLONG :

The 5th July 1920.

J. McSWINEY,

Director of Land Records and Agriculture, Assam.

FINANCIAL DEPARTMENT.

The 6th July 1920.

No. 6020F.—The following notifications by the Government of India, Finance Department, are republished for general information :—

GOVERNMENT OF INDIA.

FINANCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.
Public Debt.

Simla, the 19th June 1920.

No. 1732-F.—With reference to the Notification in the Finance Department No. 1537-F., dated the 12nd June 1920, it is notified for public information that the sale of treasury bills will be discontinued with effect from Monday the 21st June 1920.

No. 1691-F.

Simla, the 21st June 1920.

Subscriptions (a) for ten year 6 per cent Bonds, 1930, free of income-tax, and (b) for the 5 per cent income-tax free Loan, 1945-55, will be received without limit of amount from 5th July to 14th August 1920 inclusive. Subscriptions to both issues in the form of War Bonds will however be received up to 15th October 1920.

I.—TEN YEAR SIX PER CENT BONDS, 1930, INCOME-TAX FREE.

2. DATE OF REPAYMENT.—The Government of India undertake to repay the Bonds at par on 15th August 1930.

3. ISSUE PRICE.—The issue price will be Rs. 100 for every Rs. 100 of the Bonds applied for.

4. INTEREST.—Payable half-yearly at the rate of 6 per cent per annum on 15th February and 15th August.

Advance interest from date of purchase to 14th August 1920 will be paid at the time of issue of securities.

Interest on the Bonds will be income-tax free throughout their currency, but will be taken into account in determining the rate at which the tax will be levied on other income, and will be liable to super-tax.

5. ISSUE OF TEN YEAR BONDS IN EXCHANGE FOR WAR BONDS.—War Bonds 1920 and 1921 will be accepted at par as the equivalent of cash in subscription to the Bonds up to 15th October inclusive.

(a) (1) War Bonds, 1920, if tendered before 15th August 1920, will carry interest at 6 per cent from that date.

Advance interest at $5\frac{1}{2}$ per cent to date of tender and at 6 per cent from that date to 14th August will be paid at the time of issue of securities.

(2) War Bonds, 1920, if tendered after 15th August 1920, will carry interest at 6 per cent from that date.

(b) War Bonds, 1921, will carry interest at 6 per cent from date of tender :—

(1) If tendered before 15th August 1920, advance interest at $5\frac{1}{2}$ per cent up to date of tender and at 6 per cent from date of tender up to 14th August will be paid at the time of issue of securities.

(2) If tendered after 15th August 1920, advance interest at $5\frac{1}{2}$ per cent up to date of tender and at 6 per cent up to 14th February 1921 will be paid at the time of issue of securities.

Interest will cease from 15th August 1920 on War Bonds, 1920, not tendered for conversion.

II.—5 PER CENT INCOME-TAX FREE LOAN.

Issued at a discount of 5 per cent and

Repayable at par not earlier than 1945 and not later than 1955.

6. DATE OF REPAYMENT.—If not previously repaid, the loan will be repaid at par on 15th October 1955 : but the Government of India reserve to themselves the right to repay the loan or any part of it at par on or after 15th October 1945 on giving three calendar months' notice in the *Gazette of India*.

7. ISSUE PRICE.—The price of this year's issue will be Rs. 95 for every Rs. 100 of the loan applied for.

8. INTEREST.—Payable half-yearly at the rate of 5 per cent per annum on 15th April and 15th October.

Advance interest from date of purchase to 14th October will be paid at the time of issue of securities.

Interest on the loan will be income-tax free throughout its currency, but will be taken into account in determining the rate at which the tax will be levied on other income, and will be liable to super-tax.

9. ISSUE OF LOAN IN EXCHANGE FOR WAR BONDS.—War Bonds, 1920, 1921, 1922 and 1923, will be accepted at par as the equivalent of cash in subscription to the loan up to 15th October inclusive. War Bonds 1925 and 1928 will be accepted up to the same date at their nominal value increased by the present value of the premium payable on maturity; that is, they will be accepted as the equivalent of Rs. 102-4-0 and Rs. 103-4-0 respectively for every Rs. 100 nominal value of 1925 and 1928 Bonds presented.

Advance interest will be paid at the time of issue of securities from date of tender up to 14th October at 5 per cent, in addition to the half-yearly interest due on 15th August in the case of 1920 and 1922 War Bonds and on 15th September in the case of 1921, 1923, 1925 and 1928 War Bonds.

Interest will cease from 15th August 1920 on War Bonds, 1920, not tendered for conversion.

10. DEPRECIATION FUND.—In accordance with the undertaking announced in the Government of India Finance Department Notification No. 1457-F., dated 16th June 1919, a sum equal to $1\frac{1}{2}$ per cent of the aggregate amount of the loan inclusive of the 1919 issue will be set aside annually to form a fund to be used for its purchase and cancellation when the market value falls below the issue price. No future issues will be made at a price below 95 per cent; and should the issue price be higher, the fund will be employed for the purchase and cancellation of the loan when the market price falls below such higher issue price.

Supplementary Provisions.

Form of securities.

11. The loan and Bonds will be issued in the form of—

- (a) Stock, the purchasers of which will be given Stock Certificates, or
- (b) Promissory Notes.

These will subsequently, if desired, be exchanged, free of cost, for bearer bonds when the latter are available.

If no preference is stated by the purchaser, the securities will be issued in the form of Promissory Notes. A single Promissory Note will be issued for the amount required.

Purchase of loan in the form of Promissory Notes at Banks and Government Offices.

12. The loan and Bonds in the form of Promissory Notes in denominations of Rs. 100 or multiples thereof can be purchased on payment of the amount due :—

- (a) Without formal application, at the head offices or any Indian branch of the Banks of Bengal, Bombay and Madras, and
- (b) On application, at the office of the Controller of Currency, Calcutta, Deputy Controller of Currency, Bombay, or of the Accountant General or Comptroller at other provincial capitals or at any Government treasury or sub-treasury.

Applications may be in the form attached hereto (Form A), or in any other form which states clearly the amount and description of the securities required, the full name and address of the purchaser, and the treasury at which he desires that interest shall be paid.

13. Stock can be purchased in denominations of Rs. 100 or multiples thereof on payment of the amount due, from the Public Debt Office, Calcutta, direct or through any of the following offices :—

*Purchase of
loan in the
form of Stock
at Government
Offices and
Banks.*

- (a) Office of the Controller of Currency, Calcutta, Deputy Controller of Currency, Bombay, or of the Accountant General or Comptroller at other provincial capitals ;
- (b) The head offices or any Indian branch of the Banks of Bengal, Bombay and Madras,
- (c) Any Government treasury or sub-treasury.

Applications may be in the form attached hereto (Form A), or in any other form which states clearly the amount and description of securities required, the full name and address of the applicant, and the treasury at which he desires that interest shall be paid.

14. The loan and Bonds in the form of Stock or Promissory Notes can be purchased in denominations of Rs. 100 or multiples thereof, subject to a maximum of Rs. 10,000, from 5th July to 14th August inclusive, on payment of the amount due and on application at any post office conducting savings bank business. Applications may be in the form attached hereto (Form B) or in any other form which states clearly the amount and description of securities required, the full name and address of the applicant, and the treasury at which he desires that interest shall be paid.

*Purchase of
loan at Post
Offices.*

Securities purchased through the Post Office may, if so desired, be left in the custody of the Accountant General, Posts and Telegraphs.

Safe custody receipts for War Bonds deposited with the Accountant General, Posts and Telegraphs, will be received as the equivalent of cash, from 5th July to 15th October inclusive, at the values prescribed in clauses 5 and 9 at any post office conducting savings bank business.

15. Payment may be made either in cash or by cheque. In the case of purchases of securities at Presidency Banks the cheques should be drawn in favour of the Secretary and Treasurer or Agent of the Presidency Bank according as the purchase is made at the head office or at a branch of the Presidency Bank. In the case of purchases made at a Government office or a Post Office, the cheque should be drawn in favour of the officer to whom the application is presented.

*Method of
payment.
(a) By cash or
cheque.*

Payment may also be made by tender of War Bonds at the values prescribed in clauses 5 and 9. If the value of the War Bonds tendered does not correspond exactly to the price payable for the amount of loan and Bonds applied for, it will be at the option of the tenderer either to pay in cash the further amount required to make up an exact multiple of Rs. 100 in the loan and Bonds or to have the broken amount refunded to him in cash.

*(b) By tender
of War
Bonds.*

Example.—An applicant tenders Rs. 500 of War Bonds 1928 in subscription to the 5 per cent loan. The issue price of Rs. 500 face value of the loan will be Rs. 475, and of Rs. 600 of the loan will be Rs. 570; while the War Bonds will be accepted as the equivalent of Rs. 516-4-0. The applicant can either obtain Rs. 600 face value of the loan on payment of Rs. 53-12-0 in cash in addition to the War Bonds tendered or may at his option obtain Rs. 500 face value of the loan and receive a refund of Rs. 41-4-0 in cash.

Applicants who tender War Bonds in payment must transfer such Bonds to Government, (a) in the case of Promissory Notes by endorsing these with the words "Pay to the Governor General in Council" over their signature, and (b) in the case of stock, by signing the form of transfer deed on the back of the Stock Certificate before a witness. In the case of Bearer Bonds no writing is necessary.

Payment at head offices of the Presidency Banks may also be made in Indian Treasury Bills which will be accepted as cash at their face value less a discount calculated at the rate of 4 per cent per annum on the unexpired portion of the currency of the Bill.

*(c) By tender
of Indian
Treasury
Bills.*

Payment at post offices may also be made by the withdrawal of sums at the credit of the applicant in the Post Office savings banks.

*(d) By with-
drawal of Sav-
ings Bank
deposits.*

16. Brokerage will be paid to recognized bankers and brokers on applications for the loan or Bonds bearing their stamp. The rate will be $\frac{1}{16}$ th per cent when payment is made in the form of Treasury Bills and $\frac{1}{8}$ th per cent in other cases.

Brokerage.

By order of the Governor-General in Council,

M. M. S. GUBBAY,

Secretary to the Government of India:

FORM A.

Form for use when purchases are made at a Government office.

I

We

herewith tender* Rs. _____

_____ in payment of $\frac{6 \text{ per cent Bonds, 1930}}{5 \text{ per cent loan, 1945-55}}$ of the value of Rs. _____

to be issued to $\frac{\text{me}}{\text{us}}$ in the form of $\frac{\text{Promissory Notes}}{\text{Stock Certificate}}$, interest to be payable at _____

Signature _____

Name _____

Date _____

Address _____

* Where payment either in whole or in part, is made by tender of War Bonds, the entry should be "Cash Rs. _____, War Bonds of the nominal value of Rs. _____ equivalent in cash to Rs. _____"

NOTE.—If War Bonds are tendered, they should be endorsed with the words "Pay to the Governor-General in Council" over the signature of the applicant if they are in the form of Promissory Notes; and the transfer deed on the back should be signed by him before a witness if they are in the form of Stock Certificates. In the case of Bearer Bonds no writing is necessary.

FORM B.

Form to be used when purchases are to be made at a post office.

I tender Rupees Safe custody receipt for War Bonds deposited with the Accountant General, Posts and
We my/our savings bank pass book(s) for withdrawal of R _____

Telegraphs, of the nominal value of Rs. _____ equivalent in cash to Rs. _____ (together with Rs. _____ in cash),
from my/our account(s) at _____ post office.

in payment of $\frac{6 \text{ per cent Ponds, 1930}}{5 \text{ per cent loan, 1945-55}}$ of the value of Rs. _____ to be issued in
the form of $\frac{\text{Promissory Notes}}{\text{Stock Certificate}}$ and to be $\frac{\text{delivered to me/us}}{\text{retained in the custody of the Accountant General, Posts and}}$
Telegraphs.

2. Interest to be payable

- (1) at the _____ Treasury.
- (2) into my S. B. Account No. _____ opened at the _____ post office.

Head Postmaster.)

No. 1858F., dated Simla, the 25th June 1920.—*Accounts and Finance.—Public Debt.*—It is hereby notified for public information that the following amendments have been made in the terms for the new loan as published in the Notification in the Finance Department No. 1691F., dated the 21st June 1920 :—

(1) Add the following to clause 5 (a) (2) :—

“ and interest from 15th August 1920 to 14th February 1921 will be paid in advance at the time of issue of securities ”.

(2) Substitute the following for clause 9, second paragraph :—

“ Advance interest will be paid at the time of issue of securities from date of tender up to 14th October at 5 per cent. in addition to interest due at 5½ per cent. (a) up to date of tender or (b) up to 15th August in the case of 1920 and 1922 War Bonds and 15th September in the case of 1921, 1923, 1925 and 1928 War Bonds, whichever of the two dates is later ”.

G. A. WILBY,

Acting Chief Auditor.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF JUTE CROP IN ASSAM, 1920.

[NOTE.—On the average of the five years ending 1918, the area under jute in Assam represents some 3·2 per cent. of the total area under jute in British India.]

Character of the season.—The rainfall in February was above the average except in the lower Assam Valley where it was nearly normal. It was excessive everywhere in March, when it was more than double the average in the principal jute growing districts. In April the rain was scanty in the Surma Valley and about normal in the Assam Valley, but in May it was in defect almost in all districts. The excessive rain at sowing time tended to diminish the area that would have been put under jute, particularly in Sylhet, Goalpara and Kamrup. Though the weather has changed for the better, the general condition of the crop has not improved and is everywhere reported to be worse than in last year.

Area sown.—According to the estimates of the Deputy Commissioners the area sown this year has decreased in every district except Nowgong, where there is a slight increase owing to immigration from Mymensingh. The total area under the crop is estimated at 125,100 acres which is 12,200 acres less than the actual area of last year. Unfavourable market results then as well as the unfavourable weather are responsible for the decrease.

Stock.—According to the report of the Deputy Commissioners there is much jute in stock from last year in Sylhet, Goalpara and Nowgong.

Shillong,
The 3rd July 1920.

}

J. McSWINEY,

Director of Land Records and
Agriculture, Assam.

* On the basis of actual final figures.

APPENDIX L

Preliminary Forecast of the Jute Crop of Assam for 1920.

| District. | Normal area under jute. | Area under jute. | | Difference between the figure now estimated for 1920 and the final of 1919. | | Whether much, little or no jute remains in the district from the crop of 1919. | Date by which the sowing of the crop generally commenced this year and whether the data was early, normal, or late. | Remarks by Deputy Commissioner. |
|-----------|-------------------------|------------------|-------------------------|---|-----------|--|---|---|
| | | Final of 1919.* | Now estimated for 1920. | Increase. | Decrease. | | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| Cachar | Acres. 300 | Acres. 400 | Acres. 500 | ... | 200 | None | April: normal | The decrease in area as compared with the final figure of last year is due to (1) excessive rain in the latter part of March and 1st part of April, (2) fall in the price of jute, and (3) the greater necessity for growing the autumn rice crop. |
| Sylhet | 16,000 | 26,100 | 20,300 | ... | 4,800 | Most | Beginning of April: late. | The weather has been unfavourable up till now and the autumn is likely to be worse than last year. The excessive rainfall at sowing time, the low price of jute last year and the large quantities of jute remaining unsold account for the decrease of area from last year. The rain during the period has been sometimes heavy and sometimes scanty and thus caused slight damage to the crop. On the whole the weather is not favourable and the outcome is likely to be worse than last year. |

| | | | | | | | | | | | |
|--------------|--------|---------|---------|-----|--------|--------|-----|-----|-------------------------------|-----|---|
| Goalpara ... | 42,400 | 60,000 | 26,200 | ... | 4,800 | Much | ... | ... | March : normal | ... | The weather was not favourable at sowing time which is the cause of the decrease in area, nor has it been favourable up till now. Insects and hail storms did some damage. The present condition of the crop is not good and is worse than last year. |
| Kamrup ... | 8,100 | 17,000 | 15,200 | ... | 1,100 | Little | ... | ... | 16th March : early | ... | The decrease in area as compared with last year's actual is due to excessive rainfall at the time of sowing. The weather has been unfavourable and some damage has been done to the crop by insects. The present condition of the crop is not good and the prospects are worse than in the previous year. |
| Darrang ... | 7,000 | 10,100 | 9,800 | ... | 500 | Some | ... | ... | Middle part of April : normal | ... | The weather on the whole has not been favourable and the outturn is not better than last year. |
| Nowgong ... | 5,700 | 18,800 | 10,100 | 800 | ... | Much | ... | ... | 1st April : normal | ... | The increase in area from the actual of last year is due to extension of cultivation chiefly by the Miransingh people and also due to the favourable weather at sowing time. The weather in April and May was less favourable owing to insufficient rain and the early growth of the crop was retarded to some extent, but the recent rain has done much good. The outturn is therefore expected to be normal or the same as last year. |
| Sibsagar ... | 300 | 500 | 400 | ... | 100 | Little | ... | ... | Middle of March : normal | ... | The weather has been unfavourable from time of sowing up till now and hence the fall in area from the actual of last year : the outturn also will be a little less than last year. |
| Lathimpur | 200 | 200 | 250 | ... | ... | None | ... | ... | 1st April : normal | ... | The weather was rainy at the time of sowing and has been indifferent up till now. The present condition of the crop is fair. |
| Garo Hills | 4,100 | 4,200 | 4,700 | ... | 100 | Ditto | ... | ... | 16th April : late | ... | The want of timely rainfall at sowing time is the cause of the decrease in area. The weather has not been favourable to the crop and the present condition is not good. The outturn is likely to be worse than last year. |
| Total ... | 84,100 | 137,500 | 125,100 | 200 | 12,500 | | | | | | |

* On the basis of actual final figures.

J. McSWINEY,

Director, Department of Land Records and
Agriculture, Assam.

Report on the Weather and Crops for the week ending the 16th July 1920.

SUMMARY.—Weather seasonable. Harvesting of autumn rice and jute, plucking of tea and transplanting of winter rice are in progress. Outturns of autumn rice, jute and tea and prospects of standing crops are generally fair. Cattle-disease is reported from 8 districts. The price of common rice is practically stationary in Surma Valley and rose slightly in Assam Valley.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |

J. McSWINEY,

Director, Department of Land Records and Agriculture, Assam.

Report on the Weather and Crops for the week ending the 23rd July 1920.

SUMMARY.—Weather generally seasonable and hot. Harvesting of autumn rice and jute plucking of tea and ploughing for and transplanting of winter rice continue. Outturns and prospects of crops are generally fair. Cattle-disease is reported from six districts. The price of common rice is practically stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|-------------------------------------|-------------------------------------|--|----------------|--|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | CACHAR ... (SILCHAR). | 1.67 | 4½ | 4½ | Weather unusually hot and dry. Ploughing for and transplantation of winter rice and harvesting of autumn rice are in progress. Insects are reported to have damaged autumn rice crop in places. Outturn of autumn rice is poor. Prospects of standing paddy crop are fair. Cattle-disease is still reported from Hailakandi subdivision. |
| | Hailong ... | 3.01 | 4½ | 4½ | |
| | Hailakandi ... | 2.67 | 4½ | 4½ | |
| 2 | SYLHET ... | 3.46 | 4½ | 4½ | Weather hot. Sowing and transplantation of winter rice, plucking of tea and harvesting of autumn rice are in progress. Outturns and prospects of crops are fair except jute which is not good. |
| | Sunamganj ... | 6.71 | 5 | 5½ | |
| | South Sylhet ... | .61 | 5 | 5 | |
| | Karimganj ... | 2.89 | 5 | 4½ | |
| | Habiganj ... | 2.33 | 5½ | 5½ | |
| 3 | KHASI AND JAINTIA HILLS (SHILLONG). | .99 | 4½ | 4½ | Weather seasonable. Harvesting of potatoes and maize is in progress: and outturns are fair. Cattle-disease is reported near Shillong. |
| | Jowai ... | § | 5 | 5 | |
| 4 | NAGA HILLS (KOHIMA). | 5.00 | 6½ | 6 | Weather seasonable and hot. Transplantation of winter rice, harvesting of <i>ihum</i> crops and millet are in progress. Prospects of crops are poor in Sadr and fair in Mokochehang. Cattle-disease is reported from Sadr. |
| | Mokochehang | 7.69 | 10 | 10 | |
| 5 | LUSHAI HILLS (AIJAL). | .86 | 3½ | 3½ | Weather seasonable and favourable. Outturns and prospects of crops are fair. |

C. N. SARMA,

Personal Assistant
to Director, Department of Land Records and
Agriculture, Assam.

Report on the Weather and Crops for the week ending the 30th July 1920.

SUMMARY.—Weather generally seasonable and hot. Harvesting of autumn rice, jute and *jhum* crops, plucking of tea and ploughing for and transplanting of winter rice continue. Outturns and prospects of crops are generally fair. Cattle-disease is reported from five districts. The price of common rice is practically stationary.

FIRST FORECAST OF THE COTTON CROP OF ASSAM,
1920-21.

[NOTE.—On the average of the five years ending 1918-19, the area under cotton crop in Assam represents some 0·2 per cent. of the total area under cotton in India.]

As estimated by the Deputy Commissioners the area under cotton this year is 34,000 acres against 33,000 acres of last year. The prospects of the crop are promising except in Sylhet and Naga Hills.

CAMP JORHAT:

The 5th August 1920.

J. McSWINEY,

*Director of Land Records and
Agriculture, Assam.*

Report on the Weather and Crops for the week ending the 6th August 1920.

SUMMARY.—Weather seasonable and hot: more rain is wanted in most districts. Harvesting of autumn rice, jute and *jhum* crops, plucking of tea and transplanting of winter rice continue. Outturns and prospects of crops are generally fair. Cattle-disease is reported from seven districts. The price of common rice is practically stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |

G. A. WILBY,

Acting Chief Auditor.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

FIRST FORECAST OF THE SUGARCANE CROP OF ASSAM,
1920-21.

[NOTE.—On the average of the five years ending 1918-19, the area under sugarcane in Assam represents some 1·4 per cent. of the total area under sugarcane in British India.]

The season so far has been good, although the rainfall was somewhat short in July. On the whole the prospects of the crop are favourable and a normal outturn is expected.

As estimated by the Deputy Commissioners, the area under sugarcane is 34,600 acres against 32,500 acres in last year: the increase in area is due to favourable weather at planting time and the high price of *gur*. The outturn is estimated to be 99 per cent. of the normal per acre against 98 in 1919-20.

CAMP JORHAT:
The 6th August 1920.

}

J. McSWINEY,
*Director of Land Records and
Agriculture, Assam.*

APPENDIX.

First Forecast of the Sugarcane Crop of Assam for 1920-21.

| District. | Approximate area under normal sugarcane. | Estimated area under sugarcane as in last year's preliminary forecast. | Estimated area under sugarcane this year. | Taking 100 to represent the normal outturn per acre, what would represent the average outturn. | | Date by which the planting of seed generally commenced this year and whether that date was early, normal or late. | Remarks by District Officers. |
|--------------|--|--|---|--|----------------------|---|--|
| | | | | As in last year's preliminary forecast. | Estimated this year. | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| Cachar ... | Acres. 7,300 | Acres. 4,900 | Acres. 5,600 | 100 | 100 | April: normal | The favourable weather and the high price of sugar account for the increase in area. The character of weather and the present prospects of the crop are favourable. |
| Sylhet ... | 7,000 | 6,800 | 6,800 | 100 | 100 | Beginning of April: normal | The weather has been favourable and the prospects of the crop are good. |
| Goalpara ... | 1,300 | 1,300 | 1,600 | 65 | 70 | First part of April: normal | The high price of sugar is the cause of the increase in area. The weather at planting time and up till now has been fair but hailstorms did some damage to the crop. |
| Kamrup ... | 5,500 | 4,500 | 4,300 | 100 | 90 | 1st April: early | The increase in area as compared with last year is due to favourable weather at planting time. The condition of crop is fair. |
| Barrang ... | 2,700 | 1,900 | 2,300 | 100 | 105 | End of April: normal | The increase in area from that of last year is due partly to the high price of jaggery and partly to favourable weather at the time of planting. The prospects of the crop are good. |

| | | | | | | | | | |

Total

The abnormal rise in price of sugar and gur has encouraged the people to grow more. The weather has been favourable and the prospects of the crop are satisfactory. ...

The weather was favourable at planting time but afterwards it was not good owing to the absence of rain. The present condition of the crop is fair.

The decrease in area is due to the migration of Nepalese settlers who mainly grow the crop. The character of the weather during the season has been good.

T. C. McCOMBIE YOUNG, Major, I.M.S.,
Sanitary Commissioner, Assam.

Report on the Weather and Crops for the week ending the 13th August 1920.

SUMMARY.—Weather seasonable and hot: more rain is wanted in most districts. Harvesting of autumn rice, jute and *ihum* crops, plucking of tea and transplanting of winter rice continue. Outturns and prospects of crops are generally fair. Cattle-disease is reported from eight districts. The price of common rice is stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|--------------------------------------|-------------------------------------|--|--------------------------------|---|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | CACHAR (SILCHAR). | 4.30 | 5 | 4½ | Weather seasonable and beneficial to crops but more rain is wanted. Transplantation of winter rice and harvesting of autumn rice continued. Outturn of autumn rice is poor. Prospects of standing crops are hopeful. Cattle-disease is still reported from Hailakandi and Haflong subdivisions. |
| | Haflong | 1.01 | 4½ | 4½ | |

Chittagong,

The 13th August 1920.

G. A. WILBY,

Acting Chief Auditor.

Report on the Weather and Crops for the week ending the 20th August 1920.

SUMMARY.—Weather rainy and beneficial to crops. Harvesting of autumn rice, jute and *ihum* crops, plucking of tea and transplanting of winter rice continue. Prospects and outturns of crops are generally fair. Cattle-disease is reported from eight districts. The price of common rice is practically stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|-------------------------------------|-------------------------------------|--|--------------------------------|---|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | CACHAR ... (SILCHAR). | 7.62 | 4½ | 5 | Weather seasonable and favourable for agricultural operations and paddy crops. Harvesting of autumn rice is nearly finished. Plucking of tea continues. Outturn of autumn rice is poor on account of damage by insects and that of tea and prospects of winter rice are fair. Cattle-disease is still reported from places. |
| | Hailong ... | 4.71 | 4¾ | 4¾ | |
| | Hailakandi ... | 6.05 | 4 | 4½ | |
| 2 | SYLHET ... | 16.35 | 4½ | 4¾ | Weather rainy. Transplantation of winter rice, plucking of tea and harvesting of autumn rice and jute continue. Outturns and prospects of crops are good. |
| | Sunamganj ... | 22.20 | 5 | 5½ | |
| | South Sylhet... | 7.95 | 6 | 4¾ | |
| | Karimganj ... | 8.27 | 4½ | 5 | |
| | Habiganj ... | 6.94 | 5½ | 5½ | |
| 3 | KHASI AND JAINTIA HILLS (SHILLONG). | 3.83 | 4 ³ / ₁₆ | 4 ³ / ₁₆ | Weather generally rainy and beneficial to standing crops. Harvesting of potatoes and maize continues with fair outturns. Insects are reported to have damaged paddy crop in some places in the Jowai subdivision. |
| | Jowai ... | 15.11 | 4¾ | 4¾ | |
| 4 | NAGA HILLS (KOHIMA). | 1.49 | 6½ | 6½ | Weather seasonable. Harvesting of <i>ihum</i> crops continue. Prospects of crops are poor in sadr and fair in Mokokchang. Cattle-disease is reported from places. |
| | Mokokchang | 3.85 | 10 | 10 | |
| 5 | LUSHAI HILLS (AIJAL). | 3.11 | 3¾ | 3¾ | Weather seasonable and favourable. Outturns and prospects of crops are fair. |

J. McSWINEY,

Director, Department of Land Records and Agriculture, Assam.

Report on the Weather and Crops for the week ending the 27th August 1920.

SUMMARY.—Weather generally seasonable. Harvesting of autumn rice, jute and *jhum* crops, plucking of tea and transplanting of winter rice continue. Prospects and outturns of crops are generally fair. Cattle-disease is reported from seven districts. The price of common rice is practically unchanged.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |
|------------|---|--------------------------------------|--|--------------------------|---|
| | | | This week. | Previous week. | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | CACHAR ... (SILCHAR). Haflong ... Hailakandi ... | 3.27 3.19 1.85 | 4½ 4¾ 4 | 4½ 4¾ 4 | Weather seasonable but hot: more rain is wanted for agricultural operations. Harvesting of autumn rice is nearly finished. Plucking of tea continues. Outturn of autumn rice is poor and that of tea and prospects of winter rice are fair. Cattle-disease is still reported from places. |
| 2 | SYLHET ... Sunamganj ... South Sylhet... Karimganj ... Habiganj ... | 3.02 4.92 1.95 6.09 3.35 | 4½ 5½ 4¾ 4½ 5½ | 4½ 5 6 4½ 5½ | Weather seasonable and hot. Transplantation of winter rice, plucking of tea and harvesting of autumn rice and jute continue. Outturns and prospects of crops are generally good. |
| 3 | KHASI AND JAINTIA HILLS (SHILLONG). Jowai ... | 2.49 7.84 | 4½ 4¾ | 4½ 4¾ | Weather generally rainy and beneficial to standing crops. Harvesting of potatoes and maize continues with fair outturns. Cattle-disease is reported from one circle in Jowai subdivision. |
| 4 | NAGA HILLS (KOHIMA). Mokokchung | 2.25 2.46 | 6½ 10 | 6½ 10 | Weather seasonable. Harvesting of <i>jhum</i> crops continues. Prospects of crops are poor in sadr and fair in Mokokchung. Cattle-disease is reported from places. |
| 5 | LUSHAI HILLS (AIZAL). Lungleh ... | 3.07 5.37 | 3¾ † | 3¾ 3 | Weather seasonable and favourable. Harvesting of maize is finished and outturn good. Prospects of crops are fair. |
| 6 | GOALPARA (DHUBRI). Goalpara ... | 2.68 10.69 | 5 5 | 5 5 | Weather seasonable and rainy. Transplanting of winter rice in Goalpara subdivision is retarded owing to heavy rain. Harvesting of jute and autumn rice continues. Outturns and prospects of crops are fair. |
| 7 | KAMRUPE (GAUHATI). Barpeta ... | § 3.95 | 5½ 5 | 5½ 5 | Weather hot. Transplanting of winter rice continues. Prospects of crops are fair. Cattle-disease is reported from one mauza. |

Chittagong,

The 10th September 1920.

G. A. WILBY,

Acting Chief Auditor.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

FINAL FORECAST OF THE JUTE CROP OF ASSAM, 1920.

[NOTE.—On the average of the five years ending 1918, the area under jute in Assam represents some 3·5 per cent. of the total area under jute in British India.]

1. *Season*.—As indicated in the preliminary forecast, excessive rain at the sowing time diminished the area sown and the dry weather of April and May was unfavourable for growth. The weather in June and July improved prospects, but too much damage had been done already.

2. *Area*.—The area under jute as reported by the Deputy Commissioners is 118,200 acres against the final figure of 137,300 acres of last year and 125,100 acres shown in the preliminary forecast of this year. The decrease is due to unfavourable weather conditions and low prices. Five districts have revised the areas reported in the preliminary forecast.

3. *Outturn*.—The percentage of outturn is estimated to be 66 of the normal against 73 (revised) in last year.

On the basis of the area and percentage outturn and taking 3·3 bales of 400 lbs. as the normal yield per acre, the total gross yield of the Assam crop this year comes to 259,000 bales against 332,400 bales, the revised figure for last year, or a decrease of 22 per cent.

J. McSWINEY,

Shillong,
The 13th September 1920. } *Director of Land Records and*
Agriculture, Assam.

APPENDIX I.
Final Forecast of the Jute Crop of Assam, 1920.

| District. | Estimated normal area under jute. | Estimated area under jute. | | Estimated cotton as a percentage of the normal yield per unit of area. | | Estimated total yield in bales of 400 lbs. | | Date by which the harvesting was commenced and whether that date was early, normal or late. | Remarks by Deputy Commissioners. |
|-----------|-----------------------------------|----------------------------|------------|--|------------|--|------------|---|--|
| | | Last year (actual).* | This year. | Last year. | This year. | Last year.* | This year. | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| Cachar | Acres. 300 | Acres. 400 | Acres. 300 | 90 | 60 | Bales. 1,300 | Bales. 400 | August; normal | There was heavy rain at the sowing time. The weather was not favourable for the growth of the crop. |
| Sylhet | 16,000 | 26,100 | 14,500 | 68 | 60 | 58,800 | 28,200 | Beginning of September; late. | The decrease in area as compared with the actual of last year is due partly to excessive rain at the time of sowing and partly to the low price of jute, which has been reported by the jute buyers. The weather has been unfavourable. |
| Goalpara | 42,400 | 60,000 | 55,000 | 61 | 50 | 139,800 | 90,700 | Latter part of June; early | The decrease in area is due to the fact that a very large stock remained last year with the cultivators on account of the low price. The weather was unfavourable at sowing time and it continued so throughout the season. Floods and hailstorms damaged the crop to some extent. |
| Kamrup | 8,100 | 17,000 | 15,100 | 65 | 70 | 53,200 | 34,900 | 1st week of August; normal. | The weather was not favourable at sowing time on account of incessant rain but subsequently improved somewhat. Some damage was done by floods and insects. |

| | | | | | | | | | | | |
|---------------------|-----|--------|----------|---------|-----|----|----------|---------|------------------------|-----|---|
| Darrang | ... | 7,000 | 10,100 | 10,100 | 80 | 85 | 26,800 | 31,000 | August; normal | ... | The character of weather in said was good but was unfavourable in the Jangalidai Subdivision where some damage was caused by floods. |
| Nowgong | ... | 5,700 | 15,800 | 15,000 | 90 | 95 | 55,800 | 59,300 | 1st July; early | ... | The slight increase in area is due to ordinary extensions of cultivation. The weather was not too favourable to the crop. Some damage was caused by drought and insect pests. |
| Sibsagar | ... | 300 | 500 | 400 | 95 | 70 | 1,500 | 1,000 | 20th August; normal | ... | The weather has been unfavourable throughout the season. The decrease in output is chiefly due to rain after sowing. |
| Lakhimpur | ... | 200 | 200 | 200 | 94 | 95 | 600 | 600 | 15th September; normal | ... | The character of weather has been fair except that there was heavy rain at sowing time and hence the output is estimated to be slightly below normal. |
| Garo Hills (Jalins) | ... | 4,100 | 4,200 | 4,100 | 100 | 90 | 13,900 | 12,300 | 15th July; normal | ... | The weather was unfavourable at the sowing time but from June to August was generally favourable. |
| Total | ... | 84,100 | 127,300* | 115,300 | 73* | 66 | 332,400* | 200,000 | | | |

* On the basis of the actual final figures.

APPENDIX II.
Abstract Statement of estimated Acreage and Outturn of the Jute Crop, 1920.

| Province. | Acreage. | | | | | | | Outturn in bales of 400 lbs. | | | | | | | | | |

Serma Valley and Hill Districts.

Assam Valley Division.

J. McSWINEY,

Director, Department of Land Records and Agriculture, Assam.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE AUTUMN RICE CROP OF ASSAM, 1920.

[NOTE.—On the average of the five years ending 1918, the area under autumn rice in Assam represents some 1·1 per cent. of the total area under rice in British India.]

There was unusually heavy rain in February and March followed by a shortage in April and May: there was favourable rain in June followed by a second deficiency in July and heavy rains in August. The weather at the beginning of the season was generally favourable for early sowing, but growth was stopped by want of rain.

As estimated by the Deputy Commissioners the total area of the province comes to 771,400 acres against 718,500 acres reported in the corresponding forecast of last year. The increase is shared by all districts except Kamrup, Sibsagar and Garo Hills.

The percentage outturn for the province is estimated to be 72 as in the preliminary forecast of last year.

| | | Agriculture, Assam. |

STATEMENT.

Preliminary Forecast of the Autumn Rice Crop of Assam, 1920.

| District. | 1 | 2 | Estimated area under autumn rice. | | Estimated outturn as a percentage of the normal yield per unit of area. | | Date by which the sowing of the crop began this year and whether that date was early, normal or late. | Remarks by Deputy Commissioners. |
|-----------|-----|--|---|-------------------|---|-------------------|---|--|
| | | | As in last year's preliminary forecast. | This year (1920.) | As in last year's preliminary forecast. | This year (1920.) | | |
| | | | 3 | 4 | 5 | 6 | 7 | 8 |
| | | Estimated normal area under autumn rice. | | | | | | |
| | | Acres. | | Acres. | | | | |
| Cachar | ... | ... | 43,000 | 37,500 | 75 | 70 | Middle of June: late. | Last year's shortage and high prices increased the area. The weather was bad at the beginning but it became seasonable later. Insect pests are reported to have damaged the crop by nearly 25 per cent. |
| Sylhet | ... | ... | 518,000 | 146,300 | 75 | 58 | End of April: normal. | The increase in area is due to favourable weather at sowing time. The weather continues to be favourable up till now except that in July there was drought which interfered with the full development of the crop. |
| Goswami | ... | ... | 100,000 | 120,300 | 70 | 60 | March: normal. | There was a general extension of cultivation in the district this year. The season was not favourable owing to alternative floods and dry spells of weather. Floods are reported to have damaged the crop in the low-lying tracts to a certain extent. |

| | | | | | | | | | | |
|-----------------|-----|-----|-----|---------|---------|---------|-----|-----|---|--|
| Kamrup | ... | ... | ... | 175,000 | 170,000 | 165,000 | 70 | 60 | Broadcast crop, middle of February: normal. Transplanted crop—end of April: normal. | The weather was not favourable at sowing time on account of incessant rain but has been so up till now. Some damage has been done by insects and floods. |
| Darrang | ... | ... | ... | 44,000 | 26,500 | 28,500 | 68 | 78 | Broadcast—February: normal. Transplanted—end of June: late. | The weather was favourable for sowing time but became bad afterwards. It changed favourably in the latter part of the season. |
| Nowgong | ... | ... | ... | 44,000 | 58,500 | 39,000 | 65 | 75 | March: early ... | The increase in area is due to extension of cultivation on account of the high price of rice. At the beginning the weather was unfavourable and afterwards it became fair, but the want of water retarded the growth of the crop. |
| Sibsagar | ... | ... | ... | 25,000 | 27,000 | 26,000 | 70 | 75 | 15th March: normal. | The weather at sowing time was not favourable and hence the small decrease in area. There was no regular rain during the season and the growth of the crop was thereby retarded to some extent. Some damage was done by floods in sadr and Sibsaigar subdivisions. |
| Lakhimpur | ... | ... | ... | 11,000 | 17,600 | 17,900 | 92 | 93 | 15th February normal. | The increase in area as compared with the preliminary forecast of last year is due to extension of cultivation on account of favourable weather. The character of weather was favourable. Some damage from flood is reported from North Lakhimpur subdivision. |
| Garo Hills | ... | ... | ... | 10,000 | 10,200 | 10,000 | 100 | 95 | 18th February: early. | The weather was favourable at sowing time but unfavourable in March and April on account of drought which retarded the growth of the crop to some extent. |
| Other districts | ... | ... | ... | 125,200 | 126,300 | 123,200 | ... | ... | ... | ... |
| Total | ... | ... | ... | 504,200 | 718,500 | 771,400 | 72 | 73 | ... | ... |

Report on the Weather and Crops for the week ending the 1st October 1920.

SUMMARY.—Weather seasonable. Harvesting of autumn rice and jute and transplanting of winter rice are almost finished. Plucking of tea and ploughing for and sowing of pulses are in progress. Prospects and outturns of crops are generally fair. Cattle-disease is reported from four districts. The price of common rice is practically stationary.

| Serial No. | Districts and subdivisions. | Rainfall at head-quarters stations. | Price of common rice, in seers, per rupee. | | Character of the weather, etc. |

SECOND FORECAST OF THE COTTON CROP OF ASSAM.
1920-21.

[NOTE.—On the average of the five years ending 1918-19, the area under cotton crop in Assam represents some 0·2 per cent. of the total area under cotton in India.]

As estimated in the first forecast the area under cotton is 34,000 acres. Except in Sylhet and Naga Hills prospects continue to be promising.

L. B. WARD,
Deputy Comptroller, Assam.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

SECOND FORECAST OF THE SUGARCANE CROP OF ASSAM,
1920-21.

[NOTE.—On the average of the five years ending 1918-19, the area under sugarcane crop in Assam represents some 1·4 per cent. of the total area under sugarcane in British India.]

The area under sugarcane is the same as indicated in the first forecast, i.e., 34,600 acres. The prospects of the crop continue to be good since the issue of the first forecast on account of good rain in August and September.

SHILLONG :

The 7th October 1920.

J. McSWINEY,

*Director of Land Records and
Agriculture, Assam.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

FIRST FORECAST OF THE WINTER RICE CROP OF ASSAM,
1920-21.

[NOTE.—On the average of the five years ending 1918-19, the area under winter rice in Assam represents some 4·5 per cent. of the total area under rice in British India.]

Character of the season.—The season was not generally good for the sowing of broadcast rice, but it was very favourable for its growth and for the transplanted crop. The recent rains have improved the prospects of both crops which appear on the whole good.

Area sown.—2. There was extension of cultivation under winter rice in all districts except Sibsagar and Garo Hills and the total area of the province is estimated to be 3,291,000 acres or 1 64,200 acres more than in the corresponding forecast of last year. The increase is due to high price of rice and favourable weather at transplanting time.

Outturn.—3. As estimated by the Deputy Commissioners the average outturn for the province comes to 97 per cent. of the normal per acre against 72 in the preliminary forecast of last year.

| | | |

| SHILLONG : | } | J. McSWINEY, |
| <i>The 2nd October 1920.</i> | | <i>Director of Land Records and Agriculture, Assam.</i> |

APPENDIX I.

First Forecast of the Winter Rice Crop of Assam, 1920-21.

| District. | Estimated area under winter rice. | | | Estimated outturn as a percentage of the normal yield per unit of area. | | Date by which the sowing of the broadcast winter rice was begun this year and whether that date was early, normal or late. | Date by which the transplanting of winter rice was begun this year and whether that date was early, normal or late. | Remarks by Deputy Commissioners. |
|-----------|-----------------------------------|-----------------------------------|-------------------|---|------------|--|---|--|
| | Normal. | As in last year's first forecast. | This year. | As in last year's first forecast. | This year. | | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| Cachar | 158,000 Acres. | 148,000 Acres. | 158,000 Acres. | 60 | 86 | Early June: late | Middle of July: normal | The weather has been favourable and hence the increase in both the area and outturn. The prospects of the crop is satisfactory. |
| Sylhet | 1,775,000 | 1,449,000 | 1,874,000 | 70 | 100 | Middle of April: normal | Beginning of August: normal | The increase in area was due to favourable weather condition at sowing time. The broadcast crop suffered a little but the transplanted crop looks promising. On the whole the weather has been fairly good and outturn is expected to be normal. |
| Goalpara | 224,000 | 249,000 | 260,000 | 53 | 60 | Mid-March: normal | First week of July: normal | The high price of paddy was the cause of the increase in area. At the beginning of the season the weather was not favourable, but improved subsequently. The effects of weather towards the growth of the crop is good, but floods, heavy rain and insects damaged the crop to some extent in low-lying parts. |

| | | | | | | | | | |
|---------------------|-----|-----------|-----------|-----------|-----|-----|---|----------------------------|--|
| Kamrup | ... | 325,000 | 355,000 | 270,200 | 60 | 90 | 21st March: normal ... | 15th July: normal ... | The increase in area is due to favourable weather at the time of transplantation and the extension of cultivation by Mohomedan immigrants. The weather was not good at sowing time, but it has since become favourable. Some damage is reported to have been done by floods and insects. |
| Darrang | ... | 185,000 | 187,500 | 190,500 | 70 | 96 | In Sadi—April: normal In Haugaldai—End of May: late. | Last week of July: normal. | The increase in area is shared by both the subdivisions. The character of weather at the time of sowing was not favourable but became good at transplanting time and continues to be so till now. Some damage has been done to the crop by insects in the Behali circle. |
| Newgong | ... | 150,000 | 156,500 | 162,500 | 60 | 75 | 15th March: early ... | Middle of July: normal. | The area shows an increase as compared with last year on account of favourable weather at sowing time, extension of cultivation by new settlers and high price of rice. For transplanting the weather was not good at the beginning owing to want of rain and flood water, but improved somewhat later on. Some damage has been done to the crop by drought and insects. |
| Sivasagar | ... | 345,000 | 353,000 | 346,300 | 100 | 100 | Middle of March: early ... | Middle of July: normal. | The area is less than last year owing to prevalence of cattle-disease in some places and to want of sufficient rain at sowing time. The weather improved subsequently. Insect pests are reported to have caused slight damage to the crop in some mauzas. |
| Lakimpur | ... | 135,000 | 164,700 | 171,900 | 95 | 100 | 1st April: normal ... | 15th July: normal ... | The increase in area is due to extension of cultivation on account of favourable weather. The weather has been favourable during the season and the outturn is expected to be normal. |
| Gare Hills (plains) | ... | 25,000 | 25,600 | 25,600 | 100 | 100 | 20th March: early ... | 20th July: normal ... | The weather was unfavourable at sowing time but improved from the beginning of May and is at present very favourable to the crop. |
| Other districts | ... | 75,000 | 75,900 | 75,900 | ... | ... | | | |
| Total | ... | 3,441,000 | 3,136,800 | 3,521,000 | 73 | 97 | | | |

Report on the Weather and Crops for the week ending the 10th December 1920.

SUMMARY.—Weather seasonable. Harvesting of winter rice and plucking of cotton and tea continue. Sowing of mustard is nearly finished. Pressing of sugarcane is in progress. Outturns and prospects of crops are generally fair. Cattle-disease is reported from two districts. The price of common rice is falling.

Acting Chief Auditor.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

FINAL FORECAST OF THE AUTUMN RICE CROP OF ASSAM,
1920.

[NOTE.—On the average of the five years ending 1918, the area under autumn rice in Assam represents some 1·1 per cent. of the total area under rice in British India.]

The unfavourable weather conditions of the season have already been described in the preliminary forecast issued on 17th September.

2. As estimated by the Deputy Commissioners the total area under autumn rice crop is 784,300 acres against last year's actual area of 737,200 acres, and the average outturn per acre for the province comes to 73 per cent. of the normal against 75 of last year. The estimates of area reported in the preliminary forecast have been revised in five districts and those of outturn in seven.

On the basis of the normal yield of 6·3 cwt. per acre the total produce of the province is calculated to be 3,607,000 cwt. or nearly 4 per cent. more than last year.

| <i>The 15th December 1920.</i> | | <i>Director of Land Records and Agriculture, Assam.</i> |

APPENDIX I.

Final Forecast of the Autumn Rice Crop of Assam, 1920.

| District. | Estimated normal area under autumn rice. | Area under autumn rice. | | Estimated outturn as a percentage of the normal yield per unit of area. | Date by which the harvesting of the crop began this year and whether that date was early, normal or late. | Remarks by Deputy Commissioners. |
|-----------|--|-------------------------|----------------------|---|---|---|
| | | Actual of last year. | Estimated this year. | | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| Cachar | 42,000 | 45,500 | 41,300 | 80 | 97 | The decrease in area is due to insufficient rain at the beginning of the season. Some damage has been reported to have been done by weevils. |
| Sylhet | 318,000 | 146,300 | 192,500 | 80 | 80 | The weather at sowing time was favourable and increased the area, but it was unfavourable at growing time. |
| Goalpara | 100,000 | 124,400 | 134,200 | 70 | 60 | This year the weather was not so favourable as last year at the beginning of the season. Floods and drought damaged the crop to a certain extent. |

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

THIRD FORECAST OF THE COTTON CROP OF ASSAM,
1920-21.

[NOTE.—On the average of the five years ending 1918-19, the area under cotton crop in Assam represents some 0·2 per cent. of the total area under cotton in India.]

As estimated in the first and second forecasts the area under cotton is 34,000 acres against 33,000 acres shown in the corresponding forecast of last year. Rain at flowering time in Nowgong and Garo Hills injured the crop to some extent and damage is reported from drought, insects and rats in three districts. The total outturn of the province is estimated to be 12,000 bales against 13,000 bales of last year.

10th December 1920.

G. A. WILBY,
Acting Chief Auditor.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

SECOND FORECAST OF THE WINTER RICE CROP OF ASSAM
1920-21.

[NOTE.—On the average of the five years ending 1918-19, the area under winter rice in Assam represents some 4·5 per cent. of the total area under rice in British India.]

Weather conditions since the issue of the first forecast would have been much improved by later rain in October, but on the whole the prospects of both the broadcast and transplanted crops remain good.

2. The total area under the crop according to the Deputy Commissioners' estimates now amounts to 3,231,600 acres against 3,291,000 acres in the first forecast and the second forecast figure of 3,142,300 acres (revised) in last year: the increase is, as already indicated in the first forecast, due to the high price of rice and favourable weather at transplanting time. Five districts have raised the estimates of area shown in the first forecast with a net increase of 40,600 acres.

3. The average outturn is estimated to be 95 per cent. of the normal against 93 in last year. In Sylhet, Lakhimpur, Sibsagar and Garo Hills the outturn is estimated to be about normal: in the other districts the estimates range from 75 to 95 per cent. On the basis of the normal yield of 8·5 cwt. per acre, the total outturn of this year's crop is 26,902,700 cwt. or 8 per cent. more than last year.

Camp Gauhati:

The 17th December 1920.

J. McSWINEY,

*Director of Land Records and
Agriculture, Assam.*

APPENDIX I.

Second Forecast of the Winter Rice Crop of Assam, 1920-21.

| District. | Estimated normal area under winter rice. | Estimated area under winter rice. | | Estimated outturn as a percentage of the normal yield per unit of area. | | Date by which the harvesting of winter rice began this year and whether that date was early, normal or late. | Remarks by Deputy Commissioners. |
|-----------|--|------------------------------------|-------------------|---|------------|--|--|
| | | As in last year's second forecast. | This year. | As in last year's second forecast. | This year. | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| Cachar | Acres. 188,000 | Acres. 180,000 | Acres. 184,000 | 78 | 90 | Third week of November normal. | The increase in area as compared with 2nd forecast of last year is due to favourable weather and the high price of paddy. The outturn will be a little below normal on account of absence of rain at the end of October. |
| Sylhet | 1,775,000 | 1,440,000 | 1,515,000 | 100 | 100 | Middle of November: normal. | The increase in area is "due to favourable weather conditions at sowing time. The weather continues to be generally favourable to the crop and the outturn is anticipated to be normal. |
| Goalpara | 255,000 | 215,000 | 245,000 | 70 | 72 | End of November: normal. | The high price of paddy was mainly the cause of the increase in area. The weather was not favourable at the beginning but improved subsequently: floods and insects damaged the crop to some extent in the low-lying parts, and hence the outturn is estimated to be below normal. |

APPENDIX II.

Abstract Statement of estimated acreage and outturn of the Winter Rice Crop of Assam, 1920-21.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE RAPE AND MUSTARD CROPS OF ASSAM, 1920-21.

[NOTE.—On the average of the five years ending 1918-19, the area under rape and mustard crops in Assam represents some 4·6 per cent. of the total area under the crops in British India.]

The weather was on the whole favourable for sowing and high prices increased the area in Cachar, Goalpara, Kamrup, Nowgong, Sibsagar and Lakhimpur. Since sowing the absence of rain has retarded growth.

As estimated by the Deputy Commissioners the total area under the crops is 298,300 acres, or nearly 10 per cent. more than the preliminary forecast of last year. The average outturn for the province is calculated to be 80 per cent. of the normal per acre against 82 in last year.

SHILLONG :

The 21st December 1920.

J. McSWINEY,

*Director of Land Records and
Agriculture, Assam.*

APPENDIX.

Preliminary Forecast of the Rape and Mustard Crops of Assam for 1920-21.

| District. | Estimated normal area under rape and mustard crops. | Estimated area under rape and mustard crops. | | Estimated output as a percentage of the normal yield per unit of area. | | Date by which the sowing of the crops began this year and whether that date was early, normal or late. | Remarks by District Officers. |
|-----------|---|--|------------|--|------------|--|---|
| | | As in last year's preliminary forecast. | This year. | As in last year's preliminary forecast. | This year. | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| Cachar | ... | ... | ... | ... | ... | ... | The high price of mustard oil is the cause of the increase in area. The weather has not been satisfactory for the cultivation and growth of the crop. |
| Sylhet | ... | ... | ... | ... | ... | ... | The condition of weather has been favourable during the season and the prospects are fair. |
| Goalpara | ... | ... | ... | ... | ... | ... | There was extension of cultivation under the crops on account of high prices. The weather has not been good for the growth of the crop. |
| Kamrup | ... | ... | ... | ... | ... | ... | The increase in area is due to favourable weather at sowing time; subsequent conditions have been fair. |
| Darrang | ... | ... | ... | ... | ... | ... | The weather at sowing time was not favourable in Mangaldai and hence the decrease in area. The prospects of the crops are not very good. |

APPENDIX.

Preliminary Forecast of the Rape and Mustard Crop of Assam for 1920-21—contd.

| District. | 1 | 2 Estimated normal area under rape and mustard crops. | Estimated area under rape and mustard crops. | | Estimated output as a percentage of the normal yield per unit of area. | | Date by which the sowing of the crop began this year and whether that date was early, normal or late. | Remarks by District Officers. |
